

Portrait of a St. John's School Administrator

The St. John's Administrator is the instructional and catechetical leader of the school and is key to supporting the Christian environment and learning opportunities for students and teachers, as they work to acquire the characteristics as described in the *Portrait of a St. John's Graduate* and the *Portrait of a St. John's Teacher*.

Spiritual leader, who is deeply rooted in the Catholic faith, embodies the teachings of Jesus, promotes Christian values and cultivates a spirit of community.

Creative Visionary who is passionately focused on effecting change and has the ability to merge facts and data with intuition, imagination, and innovation in an effort to realize the possibilities rather than be content with the probabilities.

Effective Communicator who is open-minded and perceptive to the needs and expectations of the school and community, and who, through the art of collaboration and creative problem solving, brings cohesiveness to the organization and who expresses interest and concern by maintaining high visibility.

Dedicated Professional who creates a supportive environment by modeling and expecting accountability and responsibility; who accepts and values the differences of others, and who has integrity, courage, and compassion.

Lifelong Learner who continually and eagerly self-educates, monitors and adjusts, evaluates change, and seeks and utilizes resources to effectively influence renewal and rebirth.

Inspiring Catalyst who motivates and empowers others to become leaders and risk takers, and who encourages and acknowledges the expertise and successes of others through high expectations.
